On Your Marks...

May is considered the sprint until the finish line. It tends to be assessment month between Senior Finals, AP testing and MCAS testing. May also holds the push for league titles in athletics and the annual school musical. For Seniors, this is the month where it all starts to get REAL. This is the point where the comfort of predictability wanes and the heightened focus on their next adventure begins. They are ready but like in any great race if you start to focus on the line you can misstep and cause a great fall. Push through and dance on the other side of the finish line. We all will be there to hug you when you make it.

Get Set...

Prom Season is in full bloom. Although the event is officially in June, we all now the prep has begun. There are dresses and tuxes to get, transportation to arrange, venues for that perfect picture to select and of course don't forget to buy those tickets.

The Prom comes from the word promenade. In 1894, the word "prom" was found in a journal of an Amherst College student who went to a dance with a Smith College student. They are a great time every year. Sadly, 1/3 of teen drunk-driving related deaths happen during the prom season. It is more than just drunk driving. It is also impaired driving. We have had breathalyzers at the high school for years but this year we are bringing in a Drug Recognition Specialist who is a member of the Somerset Police Department to help us identify if someone is under a controlled substance. We do this to keep everyone safe. Information about this is contained within the Prom Contract. The contracts will be posted online and tickets will be sold starting on May 8th.

Go...

The Somerset Berkley Regional High School Music Department is hard at work. Songs, lines, dance and sets are being finalized for this grand production. SBRHS Talks is a new Somerset Berkley Regional High School family and community event created to showcase a variety of STEM careers to students.

Selected presenters will be sharing insights into their occupation that may be of interest to prospective students thinking about that field. SBRHS Talks will be scheduled for evenings during the 2018-2019 school year. We are now in the planning process and seeking local community members working within a STEM profession wishing to share their profession, skill, story or real life experiences.
